Dear Director General,

As you are aware, the “Customs Convention on the A.T.A. Carnet for the temporary admission of goods (ATA Convention)” and the “Convention on Temporary Admission (Istanbul Convention)” contribute to facilitating the temporary admission of goods by simplifying and harmonizing procedures. As of today, we have 63 Contracting Parties to the ATA Convention and 73 Contracting Parties to the Istanbul Convention. For Carnet operations, any Contracting Party should approve a guaranteeing association that will serve as guarantor of duties, taxes and fees and as an issuer of temporary admission papers.

In that context, as the depositary of these Conventions, I regret to inform you that ATA carnet operations in Brazil will no longer be available from 1 January 2022, due to the end of the arrangement between the Government of Brazil and the guaranteeing association, the National Confederation of Industry (NCI). I would like to draw your attention to a Note (Ref. Diexp/Coana Note no 0.120, dated 26 November 2021), published to this effect on the Brazil Customs website (https://www.gov.br/receitafederal/pt-br/assuntos/aduana-e-comercioexterior/manuais/carne-ata).

The confliction of the validity, if any, of ATA carnet usage until 31 December 2021, including extension of the period and replacement of the ATA carnet, etc. should be resolved through the formal interpretation process at a joint meeting of the Administrative Committee of the Istanbul Convention and the ATA Convention.

Furthermore, it is highly recommended that Contracting Parties share this information with their National Guaranteeing/Issuing Associations.

Thank you for your attention to this matter and for your ongoing cooperation.

Yours sincerely,

Kunio Mikuriya
WCO Secretary General
